PROFESSIONAL SUMMARY

Aspiring **software engineer** with a strong foundation in computer science, specializing in **AI and ML**. Proven experience in developing innovative solutions such as AI-powered data query systems and decentralized applications, enhancing efficiency and security.

Proficient in **Java, Python, web development, data science** and more. Eager to leverage my skills in **software development** and **machine learning** to deliver impactful solutions.

SKILLS

Programming Languages: Java, C/C++, Python

Web Development: HTML, CSS, JavaScript, Bootstrap, jQuery, NodeJS, ExpressJS, EJS, Flask, ReactJS, MySQL

Core Competencies: Artificial Intelligence, Machine Learning, Data Structures and Algorithms, Computer Networking, Database Management Systems, Object-Oriented Programming, Data Science, Data Analytics

Data Analysis & Machine Learning: NumPy, Pandas, Matplotlib, Seaborn, TensorFlow, Scikit-learn, Deep Learning, Natural Language Processing

Soft Skills: Team work, Analytical, Communication, Leadership

EDUCATION

- B. Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning)
Dayananda Sagar University, Bangalore | CGPA: 8.66 | 2025 (Expected)
- XII (PCMCs) - M.E.S Pre-University College, Sirsi | 2021
- X (NCERT) - Ave Maria Highschool, Sirsi | 2019

ACADEMIC PROJECTS

- QueryAI – An AI powered Data Query Interface** - [GitHub](#)
 - Developed an AI-powered data query interface utilizing Machine Learning, Generative AI and NLP to interpret and respond to complex queries, leading to a 20-30% decrease in query failure rates.
 - Improved data visualization capabilities, where 50% of time is saved in user query generation.
 - Broadened accessibility, enabling non-technical staff to retrieve data, increasing queries by 30-40%.
 - It can reduce data retrieval time by 50%, improves reporting accuracy by 20%, and cuts admin workloads by 15% for more efficient financial decision-making.
- Decentralized File Sharing System** - [GitHub](#)
 - Built a blockchain-based system for secure sharing with AES encryption, cutting unauthorized access by 40%.
 - Integrated IPFS technologies to reduce reliance on centralized servers by 40% and for risk management.
 - Streamlined file sharing operations, leading to a 20-30% reduction in file access times for authorized users
- Sentiment Analysis – Amazon Fine Food Reviews** - [GitHub](#)
 - Built a sentiment analysis model for 500,000+ Amazon fine food reviews.
 - Used NLP techniques and machine learning classifiers to provide actionable insights on customer satisfaction.
 - Succeeded in achieving over 85% accuracy in predicting review sentiment polarity.
 - Delivered insights on customer satisfaction and product performance which leads to increase in sales by 20%.

CERTIFICATIONS

- Complete JAVA and DSA by Apna-College
- Crash Course in ML by Great Learning
- Introduction to Data Science by Infosys
- Introduction to AI by Infosys
- DevTown AI Bootcamp
- Microsoft Learn Student Ambassador
- HackerRank CSS Clearance Certificate

ACHIEVEMENTS

- 3 times Karnataka State Level Ball Badminton Player
- Pre-Finalist team in Woodpecker Hackathon

EXPERIENCE

Fresher
